

As a central valley educator since 2006, I would like to extend a heartfelt welcome as I am humbled and honored to have the opportunity to serve the families and community members of George L. Snowden Elementary School.

At Snowden Elementary, we envision our children grappling with high expectations set forth by their educators as we nurture their growth on a daily basis. We believe that ALL children deserve to see themselves being acknowledged, recognized, and celebrated throughout every classroom and hallway wall while regularly hearing that they are extraordinary, so they can feel good about who they are, while enjoying a magical experience in school!

Here at Snowden Elementary, our mission is to provide an educational environment where children can grow physically, mentally and social-emotionally through our Multi-Tiered Systems of Support where they will experience a wide variety of fun and engaging lessons, engage in critical thinking skills, develop their emotional intelligence, while working collaboratively as 21st century learners in a safe and secure learning environment.

In providing these experiences for our children, we are intentional about connecting with our local community and recognize the impact that parents/guardians will have as their child's primary teacher. Engaging in daily conversations with your child about their learning experiences in school sends a message to your child that school is an important family value. Our staff here at Snowden Elementary School encourage open communication with our families and invite you to partner with us as we look to provide an overall experience that will meet the needs of the whole child.

We here at Snowden Elementary School encourage our families to connect with us on:
