Foreign Language/CTE/Fine Art			

PLEASE NOTE THE FOLLOWING:

- 20 credits of PE are required. Students must take PE in the 9th grade. The final 10 credits of PE may be waived through athletic participation. Cheerleading and color guard may NOT be used to waive any of the PE requirements.
- Three years of math are required. Three different math classes must be completed. However, it is strongly recommended that students take math all four years.
- The science requirement is divided between physical science and life science. One course in each must be taken.
- An attendance requirement of a 95% must be met each year in order to participate in extracurricular activities including the graduation ceremony. This requirement is a district and site attendance goal
